Ravi Sundaram
DevOps Engineer
ravi.sundaram@example.invalid | Bengaluru, India

PROFILE

Infrastructure and release engineer. Six years automating build, deploy and observability for data platforms.

CORE COMPETENCIES

Docker, Kubernetes, Terraform, AWS, Jenkins, Ansible, Linux, Bash, shell scripting, CI/CD, Prometheus, Grafana, networking, automation, Python, Git

PROFESSIONAL EXPERIENCE

DevOps Engineer, Example Cloud Systems (2021 • present)

• Owned the deployment pipeline for 40 services, replacing a manual release with automated staged rollouts and rollback.

• Introduced infrastructure as code with Terraform across three environments.

• Reduced mean time to recovery from 90 minutes to 12.

Systems Administrator, Example Hosting (2018 • 2021)

• Managed Linux hosts, monitoring and alerting with Prometheus and Grafana.

• Wrote Bash and shell scripting automation replacing 30 hours of manual work weekly.

EDUCATION

BE Computer Engineering, Example Institute of Technology, 2017
